THREE

BALANCING EMOLLIENT BALM

Experience nature as you bring moisture.

To protect the skin of your whole body from various sources of dryness, whenever and wherever you are. The moistness of this balm, made by concentrating rich, oil-based beauty serum, and the scent of essential oils envelop your mind, body, and skin like an amulet.

THREE Balancing Emollient Balm

7g   4,400yen (including tax)

The bounty of plants soaks into the skin of your entire body.

This multipurpose balm, like a beauty serum, can be used on the whole body from your face to the tip of your toes.

With its texture that melts into the skin, it permeates* moisture into skin that is dry due to various factors such as season, skin type, wearing masks, and aging.

Applying it to dry areas and hardened keratin will lead to comfortable skin.

With the glow of bare skin charged by the bounty of plants and the scent of blended essential oils that even affects your emotions, you can remain neutral wherever you are.

* As far as the horny layer

〈How to use〉 Put a suitable amount into your hand, and spread it a little with the back of your hand to warm it. Apply it gently to any parts of your face, body, arms, or legs that seem dry. It is also recommended for your elbows, knees, and shins.

INGREDIENTS

Marjoram oil (Origanum majorana oil)
Protects the skin from drying out due to UV rays.
With its slightly spicy scent, this essential oil also regulates your mood.

Sal tree butter (Sal tree seed oil)
Along with its moisturizing properties, it features a texture that is easily spreadable at body temperature.

Date extract (Date seed extract)
An extract that smoothens the skin with its emollient properties extracted from date palm seeds.
