INGREDIENTS

Organic cotton sheet

Sheets made of organic cotton that are soft to the touch. Drenched in a beauty serum, the sheet adheres snugly to the skin, delivering beauty serum ingredients throughout the horny layer. While conventional sheet masks generally contain adhesives to prevent fluffing on the surface, we have adopted sheets that are processed using hydropower, which are readily biodegradable.

Hydrogen carbonate hot spring water

(hot spring water from Monju Onsen, Wakayama Prefecture)

Monju Onsen in Wakayama Prefecture features hydrogen carbonate water, which is rare among the many hot springs in Japan. It is known as a "skin-beautifying hot spring," as its hydrogen carbonate water is effective for softening the skin and smoothening the texture.

Mushroom extract (Albatrellus confluens extract)

An extract obtained from Albatrellus confluens of the genus Albatrellus. It restores the balance of skin that is stressed from environmental stimulus.

lodobacter extract* (maltodextrin, water, succinic acid)

An ingredient derived from extremophiles that grow under glaciers in Switzerland. It restores the healthy balance of skin that is negatively affected by lack of sleep or irregular lifestyle. Using rare bacterial components cultured with biotechnology, it is a sustainable ingredient produced with consideration for the ecosystem and the environment.

*An extract made by spray-drying iodobacter extract on maltodextrin

THREE BALANCING SPA SHEET MASK

CONCEPT

Face-to-face with the mind, body and skin. Unwavering beauty under varying circumstances.

As the circumstances surrounding us are undergoing a major transformation, we find ourselves left with no choice but to make changes to our lifestyles. These changes have presented to many of us a chance to reevaluate the significance of the healthy balance of our mind, body and skin.

An idea conceived based on Japanese hot springs, the "spa-inspired" sheet mask makes its debut as part of the Balancing line, to restore skin's natural beauty.

With the concentrated power of Japanese water including hot spring water and botanical water, the COSMOS organic-certified mask uses expertly selected natural materials grown and manufactured sustainably, from the cotton used for the sheets to each of the beauty serum ingredients.

Use after washing your face to increase skincare penetration afterward and awaken the dewiness and clarity of your skin.

Enveloping you in the aroma of blended essential oils selected uniquely by THREE, the self-care treatment mask relaxes your mind, body and skin as you enjoy pampering yourself.

The debut of a holistic skin care product that nurtures unwavering beauty under varying circumstances.

Awakening the skin's dewiness and clarity.

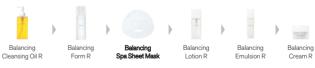

A spa-inspired, organic beauty serum mask

An organic beauty serum mask that infuses the cleansed skin with moisture as well as expertly selected botanical ingredients. It softens the horny layer that is prone to becoming dry and stiff, serving as a booster that increases skincare penetration afterward. Enveloped in a pleasant aroma of the blended essential oils, the natural balance of the mind, body and skin is restored and the complexion is revived with dewiness and clarity. For skin that is susceptible to imbalances due to irregular lifestyles or stress.

<How to use>

Use after washing your face, before applying lotion. After taking a bath in the evening or before applying makeup in the morning, use it whenever you feel like resetting your mind.

<STEP>

1:Take a sheet mask out of the bag and unfold it. Place it onto your face, adjusting the mask to match up with your eyes first.

- 2:Then, adjust it along the midline of your face, in the order of between your eyebrows, to the nasal bridge and to the mouth, so that the mask is placed symmetrically.
- 3:Gently adjust the mask to fit to the entire face, smoothening toward the outline of your face.
- 4:Leave it on for 3 to 5 minutes, breathing deeply and enjoying the aroma before removing it.
