THREE

REFRESH HAND LOTION

Organic hand lotion for your daily hand hygiene practices.

When you come back from being outside, before each meal, or when you are with your family.

Today, it has become habitual for us to wash our hands often throughout the day and keep them clean.

As the next hand hygiene step after washing hands, THREE is launching a skincare-inspired hand lotion bursting with the benefits of plants.

The citrus herbal-green aroma exuded by essential oils refreshes your mind each time you use it.

## THREE Refresh Hand Lotion

99% naturally-derived ingredients / 57% organic ingredients 250 mL  
4,950 yen (including tax)

Containing sugarcane-derived alcohol\*  
Nourishing organic lotion for hands and fingers

Fermented ethanol derived from organically grown sugarcane has been selected as the base. Containing lemon fruit extract with a natural skin conditioning effect and a blended oil including rosemary leaf oil, the lotion moisturizes your hands with a non-sticky, silky texture. Perfect for those with rough or dry hands, it can also be used by the whole family.

\*Using organic ethanol (as a cooling ingredient / base) with approximately 65 vol% alcohol concentration.

<How to use>

Take an appropriate amount on the palm. Gently massage into the fingertips, the back of the hands and between the fingers until they feel silky smooth.

Main moisturizing and emollient agents

[Essential oils] Niaouli oil / Frankincense oil / Mandarin orange peel oil /

Eucalyptus radiata oil / Rosemary leaf oil

[Botanical Extract] Tea leaf extract / Lemon fruit extract

## INGREDIENTS

### Organic fermented ethanol

Fermented ethanol distilled from organically grown sugarcane. A cooling ingredient with organic certifications given by such organizations as the USDA.

### Lemon fruit extract

Rare in Japan, this is a lemon extract obtained from organic lemons. Containing flavonoids, it is expected to have astringent and refreshing effects.
